

REMARKS

Applicants note with appreciation the allowance of Claims 21-38. They have addressed the Examiner's objections to Claims 30 and 37. Likewise, they will submit a translation of the non-English descriptions currently contained in Fig. 1 as well as in Figs. 2 and 3(a)-(c).

Applicants traverse, however, the objection to the drawings as not showing the single strength spectacle lens having a lateral tilt. As will be apparent to one skilled in the art, that is the very feature shown in Fig. 3(d), as pointed out at page 19 of the Substitute Specification. Reconsideration is respectfully requested.

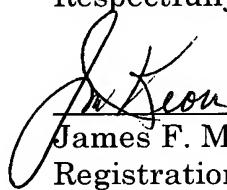

If there are any questions regarding this amendment or the application in general, a telephone call to the undersigned would be appreciated since this should expedite the prosecution of the application for all concerned.
